

Elio Valenzuela

Game Developer

BIO

I am a programmer with over eight years of experience in video game and mobile application development. Passionate about video games and the creation process, I enjoy collaborating within multidisciplinary teams and contributing at various stages of production. Although my specialty is programming, my broad understanding of development allows me to grasp and adapt to different areas of a project, facilitating communication and teamwork to turn ideas into high-quality experiences.

Engines & Tools

Unreal Engine (C++ and Blueprints)
Unity3D (C#)
Godot (GDScript)
Git

Programming Languages

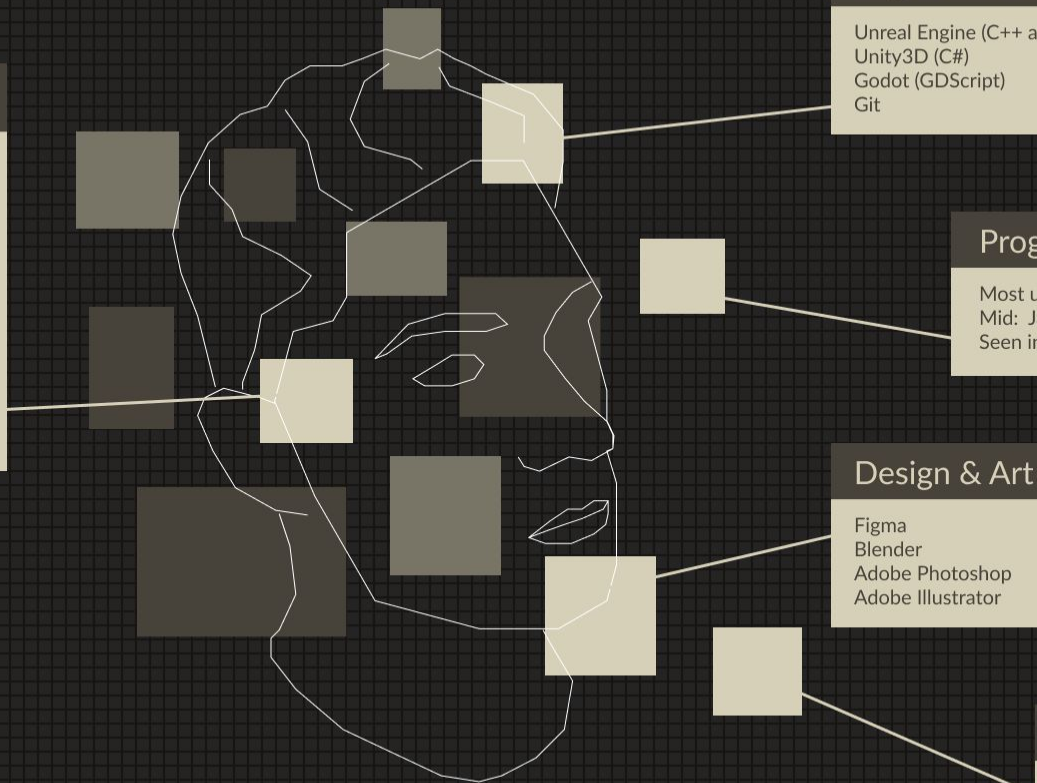

Most used: C#, C++, GDScript
Mid: JavaScript, React, CSS, HTML
